 Pakistan Council for Scientific and Industrial Research

NUST INSTITUTE OF MANAGEMENT SCIENCES
PAKISTAN 10th December, 2001

Mr. Khalid Mehmud,
Director Quality Assurance,
Kohinoor Textiles Ltd.
Rawalpindi.

Dear Mr. Mehmud:

I take this opportunity to thank you for sparing your valuable time and delivering an excellent presentation on Quality Function Deployment at PTC, Jhelum.

I put forward my sincerest appreciation and admiration to you for sharing your valuable knowledge and experience that not only invoked a lot of interest but also helped us in putting across the thought in a very practical manner.

As you already know, Quality Function Deployment is one of the most effective quality tools that can help organizations establish loyal customers by appropriately conveying their expectations and perceptions and thereby increasing their business share in the market. Unfortunately there is still unawareness on such quality improvement methodologies in Pakistan. This training program is our first national effort to develop the realization of such advanced quality tools in the industrial and services sector of Pakistan.

We are likely to continue such in-house training programs in future for various national and multinationals like PTC, Engro etc and will be more than happy to have your continued cooperation in this context.

On the behalf of my team, I once again extend my sincerest thanks for your intellectual value addition to the august forum. Looking forward for a strong healthy long-term future relationship.

With very kind regards,

Dr. Ali Sajid
Department Chair,
Info Tech and Management.

Attention:
Khalid Mahmud

21 April 2004

Dear Khalid Mahmud,

Subject: **SSCE/EMS-AA - Advanced EMS Auditing (IEMA Approved) 22 March 2004 SGS Pakistan (Private) Limited**

Course Identifier: SGS/SSCE/EMS-AA/505344/PS859

Your results on the above-mentioned course are as follows:

Continuous Assessment: 86.5 %

Examination: 85 %

Overall Course Mark: 85.8 %

The SGS rules for this course require that delegates achieve minimum marks of 70% for the continuous assessment element and 70% for the examination element of the course. The resulting combination of these marks is weighted: 40% for continuous assessment and 60% for the exam, requiring a minimum overall mark of 70%.

We are, therefore, pleased to inform you that you have successfully completed the above mentioned course and enclose your certificate of successful completion. If you should, at some time in the future, wish to use the result as justification for registration points, for application or re-grading with IEMA, it will be necessary that you quote these results and your unique course identifier/certificate number as above in any correspondence with IEMA.

Please accept my congratulations and best wishes for the future.

Yours sincerely,

Rebecca Bowers
